SUMMARY

- Proficient in HTML, CSS, and JavaScript, specializing in Angular, ReactJS, NgRx, and Angular's Context API, backed by 3 years of hands-on experience.
- Expertise lies in optimizing Angular application performance through advanced techniques such as lazy loading and code splitting.
- Skilled in utilizing Charting libraries like ngx-charts and Google Charts to visually represent data effectively within Angular projects.
- Proficient with version control systems, adept at branching, merging, and conducting code reviews to ensure efficient collaboration in Angular development.
- Possess the ability to handle time-sensitive features effectively.

EXPERIENCE

Senior Software Engineer

Mobiato IT Solutions Pvt Ltd

Dec 2023 - Present

Dubai

- Lead Angular development initiatives with a focus on dynamic reports utilizing Mat Angular tables.
- Integrated stacked graphs using Chart.js to enhance data visualization and improve insights.
- Implemented progress bars with npm progress bar for transparent task progress tracking.
- Proficiently developed numerous forms modules, ensuring seamless data rendering across applications.
- Demonstrated technical prowess in Angular, emphasizing best practices in frontend development.
- Additionally, contributed to the development of live tracking maps using AGM Maps for real-time location visualization, enhancing user experience and functionality.

Associate Software Engineer

Bellurbis LLC

Jan 2022 - Dec 2023

Indore, India

Telemedicine

- Contributed to a government project aimed at improving healthcare quality.
- Implemented responsive design with HTML and CSS, resulting in an 80% increase in user engagement.
- Integrated UI libraries such as chart.js, jspdf, and sheet.js.
- Introduced video call functionality using Twilio library, facilitating remote consultations between doctors and patients, thereby enhancing access to healthcare services.
- Enhanced application performance through code optimization and refactoring.

Bellurbis MedTech

- Developed highly interactive web applications using JavaScript, HTML5, CSS, JSON, ANGULAR, and RESTful APIs, ensuring optimal performance across mobile and desktop platforms.
- Implemented a PDF and Excel file generator feature using Angular 13 and TypeScript, leveraging third-party libraries such as jspdf and sheet.js.
- Created custom directives, filters, pipes, and services to extend application functionality.
- Developed reusable UI components and implemented responsive design using Angular Material.

SKILLS

Angular JavaScript TypeScript
Angular CLI Angular Material HTML
CSS Git Media Query JSON
Bootstrap RxJs Observable NgRx
SCSS Echarts npm
CSS Preprocessors JS Build Tools
Unit Testing RESTful API

PROJECT

Student Enquiry System

- Developed a Student Enquiry System using Angular.
- Implemented a user-friendly interface for seamless information retrieval.
- Knowledge of RESTful APIs utilized for efficient data communication.

Aavas Home Loan

- Aavas Home Loan is a financial institution specializing in providing home loan services to individuals seeking to purchase or build a house.
- Spearheaded the development of various client-side elements utilizing Angular framework.
- Executed responsive design techniques with HTML and CSS, leading to a notable surge in user interaction.

Product Listing

- Developed a dynamic Product Listing website using Angular.
- Implemented a visually appealing and responsive user interface for efficient product browsing.
- Demonstrated skills in Angular framework, TypeScript, HTML/CSS, and utilized RESTful APIs for seamless data retrieval and presentation.
- Applied a user-centric approach to enhance the overall shopping experience and showcase products effectively.

EDUCATION

Master of Computer Application (MCA) (Integrated)

IPS Academy School of Computers

Jul 2017 - Jun 2022 Indore, Madhya Pradesh
